WOOJAMARK

# W30+/W50+

Brand New TTO You Deserved

W30+/W50+

Two Mode in One (Intermittent & Continuous)

Both of intermittent mode and continuous mode are build in W30+/W50+.

Two mode can be switched from each other easily.

One machine with two mode meets up more application from lines with both needs of intermittent packaging and continuous packaging, which makes stocking up by distributors more easily and saves inventory cost.

Hot Plug and Play

Printer and controller are separate.

Controller of W30+/W50+ supports hot plug and play.

Printer keeps operating without controller.

Multiple printers can share only one controller.

W30+/W50+ prevents damp production because of controller failure.
Cost of Controller

W30+/W50+ Controller

Low repair and replacement cost

Save you more money, compared to printers from other brands.

Easy Way To Change Ribbons

Only two ribbon roller with printer cap of W30+/W50+, ensures installation of ribbons with full angle easily.

Simplest way to change ribbons, shorten changing time, raise efficiency.
Retractable Ribbon Reel

Ribbon Reel of W30+/W50+ is using specialized spring leaf to hold the ribbon rolls tightly. Heavy duty ribbon reel ensures reliable operation, simple loading and unloading.

Ribbon Usage Optimization

Ribbon rolling is controlled by dual electric motors to keep rolling stable.

Printing gap of 0.5mm(adjustable) by default setting balances excellent print quality and minimizing waste of ribbon.

Ribbon Saving Mode
W30+/W50+ has ribbon saving mode.

Compressed saving print

Repeated saving print

Uniformly-spaced print

Position compensation print

**Multiple saving print can be set at same time.**

Print head of W30+/W50+ can be repositioned easily by parameter adjustment, and printing angle can be self adapting to different cushion or rubber rolls to ensure printing quality.

Code Inspection

W30+/W50+is integratable with our independent developed code inspection system.

Code inspection system adopts CIS scanning technology which does not require strong light source, long focus camera, or large space.

Designed for inspecting missing code, wrong code, distort code, variable QR or barcode, and displaced code.

Specification

	W30+	W50+
Print Speed	Intermittent: 2 m/min – 30 m/min Continuous: 0.5 m/min – 42 m/min	
Print Frequency	Intermittent: Max. 250 times/min Continuous: Max. 370 times/min	
Print Area	Intermittent: 32mm x 75mm Continuous: 32mm x 150mm	Intermittent: 53mm x 90mm Continuous: 53mm x 150mm

Excellent performance on print speed and area size of W30+/W50+ is outstripping those competitors from other brands.

International Support

	W30+/W50+
Arabic, Persia and other special character	Supported
Solar Hijri Calendar and Islamic Calendar	Supported
GS1 Barcode	Supported

W30+/W50+ supports more special character and calendar to meet up needs of clients from different countries all over the world.
